# UNITED STATES PATENT OFFICE.

FRANCIS H. LEGGETT, ALBERT H. JONES, AND LEWIS WALLACE, OF NEW YORK, N. Y.

## DESIGN FOR A BOTTLE.

SPECIFICATION forming part of Design No. 18,942, dated February 26, 1889.

Application filed December 12, 1888. Serial No. 293,389. Term of patent 7 years.

*To all whom it may concern:*

Be it known that we, FRANCIS H. LEGGETT, ALBERT H. JONES, and LEWIS WALLACE, citizens of the United States, residing in the city, 5 county, and State of New York, have invented and produced a new and original Design for a Bottle, of which the following is a specification, reference being had to the accompanying drawings, forming part thereof.

10 Figure 1 shows an elevation or front view of our design in its entirety, and Fig. 2 is a sectional view, these two views being considered requisite to fully illustrate our design.

15 The leading features of our design are a continuous band of short straight concave flutes at the base, as shown in Fig. 2, and the

gradual curve presenting a plain annular surface in the body of the design, reaching from the flutes to the neck, as shown in Fig. 1, together with the vertical space in the neck 20 formed by the collar at the base of the neck and the lip of the bottle.

We claim—

The design for a bottle, consisting of the shape and ornamentation herein described 25 and shown.

FRANCIS H. LEGGETT.  
ALBERT H. JONES.  
LEWIS WALLACE.
